

## Keeping children safe

**We all need to play our part in keeping children safe and this includes supporting parents by sharing useful, practical tips to help them keep their children safe at home and when out and about.**

Why not create an information board for parents? Create your board using accident prevention tips and ideas from the Child Safety Week website. There are lots of resources to help you promote safety messages in a fun and engaging way.

It's important to remember that it's not just about keeping children safe through accident prevention, it's about safeguarding children's well-being through frightening, upsetting events they may see and hear about.

The NSPCC has some advice for parents for talking to children about terrorism as does Newsround. Remember, Sharing is Caring.
